Available Q2 2018! pre orders and information at sales@its-hightech.nl

BUZZARD

50 MP, 12 to 15 FPS, Full frame Embedded Linux EF Mount UDP over TCP Output Buzzard is a 50MP camera, delivering live video with speeds of 12 to 15FPS. Ideal for Wide Area Persistent Surveillance platforms, (covert) surveillance, geomapping and ISR platforms. Embedded Linux for full camera control. ITS proprietary BitSqueezeTM technology makes sure that the image is compressed in a way that the high resolution is still useable without any noticeable loss of quality.

Key features

- BitSqueeze[™] technology
- 50MP
- Embedded Linux

Applications

- ISR
- Wide Area Persistent Surveillance platforms
- Security and surveillance
- Geomapping

EXTRAORDINARY CAMERA SYSTEMS

Available Q2 2018! pre orders and Avauatic V4 4010: Pre truers and information at sales@its-hightech.nl

BUZZARD

System basics		224
Гуре	Full colour 50MP CMOS camera	
Sensor size / diagonal	36.4x27.6mm / 45.6mm	
Sensor resolution	50MP (7920x6004)	
Dynamic range	72dB	the second second
Spectral range	400 – 1000 nm	
Frame rate	12 to 15 FPS, UDP over TCP	
nput and output		
Dutput	Ethernet	
nterface	UDP over TCP/IP	
Power	DC power plug	
External trigger input	5-24 Volt DC	
Features		
Features mage processing	Powerful, FPGA based, digital image enhancemen white balance, gamma correction, brightness, defe	ct pixel correction, etc
		ct pixel correction, etc
