

- Camera core, perfect for integration in a camera system
- Smallest housing
- 52,0 x 64,8 mm
- Hirose connector, with digital output and PAL, no BNC connector
- Lens mount is coupled with image intensifier, not ideal for the heavier lenses

- Pulsatrix Core inside! Thus it features the same imaging and sensitivity specifications as Pulsatrix Core.
- Complete, ready to use night vision camera
- Slightly bigger housing
- 71,0 x 66,0 x 88,0 mm
- Standard BNC connector for PAL output
- Lens mount is uncoupled from image intensifier, no mechanical stress on image
- Extra BNC connector (input) for the connection of a standard CCTV camera (daylight sensor)
